

Industrial Safety Controls, Inc.

SALZER –
Loading Breaking Switches for Photovoltaic
 for the renewable energy market with advanced DC rating. Polycarbonate enclosures that are IP66 insulated. Base mounting switches for panel applications and distribution boards.

Salzer

Salzer is the first to offer load bearing switches for the renewable energy market. Also known for their Rotary Cam and Disconnect switches.

- Main/emergency-off switches
- Main switches
- ON-OFF switches
- Changeover switches
- Maintenance switches
- Safety switches
- Distribution switches
- Motor switches
- Load breaking switches
- Multi-step switches
- Code switches
- Gang switches
- Instrument switches

ENCLOSURE SOLUTIONS –
Universal Series Enclosures
 Lighter, non-corrosive, easy to machine, and the thermoplastic material is safer than metal or FRP equivalents.

SALZER –
Rotary Cam & Disconnect Switches are available in front mount, base mount, or enclosed, and in a variety of voltage ratings and switching programs.

Enclosure Solutions

Enclosure Solutions, Inc. provides numerous Universal Series and Poly-Guard enclosures for a variety of industrial applications.

- Industrial control panels
- Pump controls / water treatment
- Instrumentation and controls
- Solar / wind /geothermal controls and systems
- RF controls / wireless systems
- Irrigation and water control
- Marine and high-corrosion applications
- Applications where weight reduction and/or high impact

PVC CUSTOM ENCLOSURES!!
 Any configuration, any size,
 any application.

ENCLOSURE SOLUTIONS –
Poly-Guard Enclosures
 Polycarbonate durable enclosures. Available in six sizes. Designed to protect in difficult environments.
